Location of Work:				Yes	No	N/A
1.	Entry training and assessment has been conducted for all persons associated with Confined Spaces.					
2.	All personnel / contractors required to work within a Confined Space have an approved JHA(Job Hazard Analysis) for the entry and a confined space permit.					
3.	There is a Qualified Person to perform confined space atmosphere testing.					
4.	Workers are in compliance with all requirements as defined by the permit, and; understand the hazards associated with the confined space; know the consequences of exposure to the hazard; and are maintaining contact with the standby person.					
5.	All employees who are required to enter confined areas or spaces have been instructed as to the nature of hazards involved, necessary precautions to be taken and in the use of protective and emergency equipment required to support the entry					
6.	When welding, cutting or grinding in confined spaces is required, appropriate ventilation has been provided, and respiratory protection appropriate to the hazard(s) is worn.					
	NOTE: Consult with Total Health & Safety (Safety Specialist) and/or other SME(s) as necessary to verify these criteria.
